(IV) DETAILS OF THE SERVICES BEING OFFERED:

The Portfolio Manager broadly offers Discretionary, Non-Discretionary and Advisory services. The details of the services are given as below.

A) Discretionary service: In case of Discretionary Services, the Portfolio Manager shall independently manage the funds and securities of the client in accordance with the provisions of Portfolio Management Service agreement. The choice as well as the timings of the investment decisions rest solely with the Portfolio Manager. The Decisions made by Portfolio Manager for the Investment/Disinvestment shall be final and binding on the client. The Portfolio Manager's decision taken in good faith towards deployment of client's account can never be called in question or be open to review at any time during the currency of client's agreement.

Presently following portfolio strategies are being offered to the Investors.

Based on the Client's profile, overall investment objective and other relevant factors, the Portfolio of the Clients are at present managed under one or more of the following Investment Strategies:

- **Customized Discretionary Portfolios:**

The Customized Discretionary portfolios are tailor-made to meet clients' specific objectives. The portfolios have client-specific investment objectives and risk control metrics. Investments may be made across equity and debt schemes and are customized to meet specific liquidity needs. The portfolio under discretionary services can be classified as Customized Equity Portfolio or Customized Debt Portfolio.

- **Investment in Real Estate Companies Portfolio :**

The objective is to participate on behalf of the clients in debt instruments issued by companies into real estate. The aim is to achieve regular interest and/or capital appreciation by investing in debentures of financially sound unlisted/listed real estate companies or funds investing in the securities of real estate companies.

- **Long Term Value Portfolio:**

Its philosophy is money is made by investing in the long term. The portfolio uses a focused, bottom up approach wherein not more than 15 – 20 stocks are selected. This is value oriented fund with capitalization in large cap funds. This Portfolio is suitable to Investors who like to invest with a Long-term wealth creation view with medium risk and medium returns.

- **Select Equity Portfolio:**

The Portfolio aims to create diversified multi-cap portfolio, consisting of a combination of growth and value stocks. This Portfolio is suitable to Investors who like to invest in the funds with medium and long term objectives. The Benchmark Index of the Portfolio is S&P CNX Nifty. Initially the investments are focused in the Banking, Pharmaceuticals and Infrastructure sector. Portfolio shall invest in the sectors that witness long term improvements in their business environment leading to higher sustainable growth rates.

- **Select ETF Portfolio:**

The Portfolio aims to create diversified multi-cap portfolio, consisting of a combination of growth and value stocks combined with ETFs. This Portfolio is suitable to Investors who like to invest in the funds with medium and long term objectives. The Benchmark Index of the Portfolio is S&P CNX Nifty. Portfolio shall invest in the sectors that witness long term improvements in their business environment leading to higher sustainable growth rates. ETFs are included as part of the Portfolio to reduce volatility with respect to the markets.

- **Debt Portfolio:**

This Portfolio primarily is a growth oriented Portfolio in debt which will focus on a Universe of available debt and debt investments. The investments would include Government Securities, RBI bonds, PSU bonds, Tax Free Bonds , Corporate Debentures, Bank Bonds , State Guaranteed bonds , money market instruments, commercial paper and Certificate of Deposits, liquid plus schemes and secured NCD's. This Portfolio is suitable to Investors who like to invest in the funds with low volatility and superior risk adjusted returns.

- **Growth Portfolio:**

The focus is on growth oriented investment theme based on the macro economy, monetary / fiscal policy, politics, valuations and global environment changes. Bottom up selection with attractive sectors/themes would cover 60- 70% of the portfolio.

- **Lease Rent Discounting/ Pre-leased Rental Strategy:**

Under this portfolio investment will be made in shares of unlisted companies on private placement basis. These Companies shall invest in the commercial properties which are already given on lease and earning rental income. Risk related to land acquisition and development risk are mitigated through this investment type since the asset is ready and income yielding. An increase in rentals and appreciation in value of property may positively impact the yield of the investment.

- **National Development Agenda Portfolio:**

Investment objective of the Portfolio is to generate long term capital appreciation for investors from a portfolio of equity and equity related securities. The investment strategy of the Portfolio will be to invest in equity securities of infrastructure oriented sectors, manufacturing oriented sectors, PSU's, banking & financial services (especially project finance oriented entities) and consumer discretionary sectors.

- **Equity Investment - upto 100%**

- **Liquid schemes of Mutual funds and other securities as per discretion of Portfolio Manager**

Notes:

- Investment under Portfolio Management Services will be only as per the applicable SEBI Regulations
- The un invested amounts forming part of the Client's Assets may be at the discretion of the Portfolio Manager be held in cash or deployed in Liquid fund schemes, Exchange Traded Index Funds, debt oriented schemes of Mutual funds, Gilt schemes, Bank deposits and other short term avenues for Investment.
- The Portfolio Manager, with the consent of the Client, may lend the securities through an Approved Intermediary, for interest.
- All of the above strategies are based on client's investment objective(s) and should not be construed as any Scheme promoted by the Company.

B) Non-Discretionary service:

Under Non-discretionary services, the Portfolio Manager advises the Client about the various investments options and exit opportunities keeping in view the investment profile of the client etc. The Client ultimately decides on the investments. The Portfolio Manager facilitates the clients in providing research, investments advice, guidance and trade execution at the client's request. The Portfolio Manager shall execute orders only as per the instructions received from clients. The deployment of the client's funds and securities by the Portfolio Manager on the instructions of the client is absolute and final.

Presently there are no clients under Non-discretionary services.

- Advisory service: Apart from Discretionary and Non-Discretionary Portfolio Management Services, the Portfolio Manager also offers Advisory Portfolio Management Services wherein the Portfolio Manager only renders investment advice to the

client in respect of securities. Discretion to execute the transactions and responsibility for execution /settlement of the transactions lies solely with the Client.

Under the Advisory function, Portfolio Manager advises on the client's portfolio with/without managing the funds/securities on specific or general instructions given by the client, as the case may be. Under the Advisory function, Portfolio Manager advises on the Fund Management, Investment Management, Custody of Securities and other support services. Discretion to execute the transactions and responsibility for execution /settlement of the transactions lies solely with the Client.

POLICY FOR INVESTMENT IN GROUP COMPANIES

The Portfolio Manager may utilize the services of the Group Companies and / or any other subsidiary or associate company established or to be established at a later date, in case such a company is in a position to provide requisite services to the Portfolio Manager. The Portfolio Manager will conduct its business with the aforesaid companies (including their employees or relatives) on commercial terms and on arm's length basis and at mutually agreed terms and conditions and to the extent permitted under SEBI Regulations after evaluation of the competitiveness of the pricing offered and the services to be provided by them. The Portfolio Manager may invest in shares, units of mutual funds, debt, deposits and other financial instruments issued by any of the group / associate companies of the Portfolio Manager to the extent permitted under the SEBI Regulations.

4. PENALTIES, PENDING LITIGATION OR PROCEEDINGS, FINDINGS OF INSPECTION OR INVESTIGATIONS FOR WHICH ACTION MAY HAVE BEEN TAKEN OR INITIATED BY ANY REGULATORY AUTHORITY:

i.	All cases of penalties imposed by the Board or the directions issued by the Board under the Act or Regulations made there under	Nil
ii.	The nature of the penalty/direction.	N.A.
iii.	Penalties imposed for any economic offence and/ or for violation of any securities laws	Nil
iv.	Any pending material litigation/legal proceedings against the portfolio manager / key personnel with separate disclosure regarding pending criminal cases, if any.	Nil
v.	Any deficiency in the systems and operations of the portfolio manager observed by the Board or any regulatory agency.	Nil
vi.	Any enquiry/ adjudication proceedings initiated by the Board or any regulatory agency against the portfolio manager or its directors, principal officer or employee or any person directly or indirectly connected with the portfolio manager or its directors, principal officer or employee, under the Act or Regulations	Refer Annexure A

No penalties / directions have been issued by the SEBI under the SEBI Act or Regulations made there under relating to Portfolio Management Services provided by the Company. There are no pending material litigations or legal proceedings, findings of inspections or investigations for which action has been taken or initiated by any regulatory authority against the Portfolio Manager or its Directors, principal officers or employees or any person directly or indirectly connected with the Portfolio Manager under the SEBI Act and Regulations made there under relating to Portfolio Management Services.

IIFL Holdings Limited which is the Holding company of IIFL Wealth Management Ltd. is also registered as Stock Broker and Depository Participant. In the normal course of its Broking and Depository business there arise arbitration matters/ client / Exchange proceedings before respective Exchange / Depository / Forums, most of which get rectified / disposed off in the normal course.

5. DETAILS OF SERVICES OFFERED BY THE PORTFOLIO MANAGER:

The Portfolio Manager broadly offers Discretionary portfolio management, Non-Discretionary portfolio management and Advisory services as described hereinabove in clause 3 (iv).

Under Discretionary and Non-Discretionary service, the Portfolio-Manager may invest in various portfolios with different terms and conditions from time to time. Discretionary and Non-discretionary services are being offered under various strategies with various terms and conditions.

TYPE OF SECURITIES WHERE INVESTMENTS MAY BE MADE BY THE PORTFOLIO MANAGER UNDER ANY OF THE ABOVE MENTIONED SERVICES

Asset Classes for investment will always be subject to the scope of investments as may be agreed upon between the Portfolio Manager and the Client by way of any agreement, explicit or implied including this disclosure document, addenda thereof, other documents and communications in writing and emails duly authenticated and exchanged between the client and IIFL Wealth Management Ltd.

6. RISK FACTORS:

- (a) Investments in securities are subject to market risks, which include price fluctuation risks. There is no assurance or guarantee that the objectives of any of the Portfolios will be achieved. The investments may not be suited to all categories of Investors.
- (b) The past performance of the Portfolio Manager in any Portfolio is not indicative of the future performance in the same or in any other Portfolio either existing or that may be offered. Investors are not being offered any guaranteed or indicative returns through these services.
- (c) Risk arising out of non-diversification: The investment objectives of one or more of the portfolio management Offerings / Options could result into concentration on a specific asset/ asset class/sector/ issuer etc., which could lead to non-diversified portfolio which tends to be more volatile than diversified portfolio. The performance of the portfolio may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems in equity and debt markets
- (d) The investments made are subject to external risks such as war, natural calamities, and policy changes of local / international markets which affects stock markets.
- (e) The performance in the equity portfolios may be adversely affected by the performance of individual companies, changes in the market place and industry specific and macro-economic factors.
- (f) The performance of the assets of the Client may be adversely affected by the performance of individual securities, changes in the market place and industry specific and macro-economic factors. The investment strategies are given different names for convenience purpose and the names of the Strategies do not in any manner indicate their prospects or returns.

- (g) The debt investments and other fixed income securities may be subject to interest rate risk, liquidity risk, credit risk, and reinvestment risk. Liquidity in these investments may be affected by trading volumes, settlement periods and transfer procedures.
- (h) Investments in niche sectors run the risk of volatility, high valuation, obsolescence and low liquidity.
- (i) The Portfolio Manager may invest in non-publicly offered debt securities and unlisted equities. This may expose the client's portfolio to liquidity risks.
- (j) Engaging in securities lending is subject to risks related to fluctuations in collateral value/settlement/liquidity/ counter party.
- (k) Portfolio services using derivative/ futures and options are affected by risk different from those associated with stock and bonds. Such investments are highly leveraged instruments and their use requires a high degree of skill, diligence and expertise. Small price movements in the underlying security may have a large impact on the value of derivatives and futures and options. Some of the risks relate to mis-pricing on the improper valuation of derivatives and futures and options and the inability to correlate the positions with underlying assets, rates and indices. Also, the derivatives and future and options market is nascent in India.
- (l) The Portfolio Manager is not responsible or liable for any loss resulting from the operations of the Portfolio Services. All Portfolios under portfolio management are subject to change at any time at the discretion of the Portfolio Manager.
- (m) Performance of the Portfolios may be impacted as a result of specific investment restrictions provided by the client.

Specific Risk Factors

The investments, presently recommended by the Portfolio Manager are subject to following risk factors:

- **Market Risk**

The NAV of the portfolio will react to the securities market movements. The investor could lose money over short periods due to fluctuation in the NAV of Portfolio in response to factors such as economic and political developments, changes in interest rates and perceived trends in securities market movements and over longer periods during market downturns.

- **Market Trading Risks**

Absence of Prior Active Market: Although securities are listed on the Exchange(s), there can be no assurance that an active secondary market will develop or be maintained.

Lack of Market Liquidity: Trading in securities on the exchange(s) may be halted because of market conditions or for reasons that in the view of the exchange Authorities or SEBI, trading in particular security is not advisable. In addition, trading in securities is subject to trading halts caused by extra ordinary market volatility and pursuant to Exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of the Market necessary to maintain the listing of securities will continue to be met or will remain unchanged.

ETF may Trade at Prices other than NAV: ETF may trade above or below their NAV. The NAV or ETF will fluctuate with changes in the market value of Scheme's holdings of the underlying stocks. The trading prices of ETF will fluctuate in accordance with changes in their NAVs as well as market supply and demand of ETF. However, given that ETF can be created and redeemed only in Creation Units directly with the Mutual Fund, it is expected that large discounts or premiums to the NAVs of ETFs will not sustain due to availability of arbitrage possibility.

- **Regulatory Risk**

Any changes in trading regulations by the Exchange(s) or SEBI may affect the ability of marker maker to arbitrage resulting into wider premium/ discount to NAV for ETFs. Because of halt of trading in market the Portfolio may not be able to achieve the stated objective.

- **Asset Class Risk**

The returns from the types of securities in which a portfolio manager invest may underperform returns from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of outperformance and underperformance in comparison of the general securities markets.

- **Performance Risk**

Frequent rebalancing of Portfolio will result in higher brokerage/ transaction cost. Also as the allocation to other securities can vary from 0% to 100%, there can be vast difference between the performance of the investments and returns generated by underlying securities.

- **Interest Rate Risk**

Changes in interest rates may affect the returns/ NAV of the liquid/debt scheme of Mutual Fund in which the portfolio manager may invest from time to time. Normally the NAV of the liquid scheme increases with the fall in the interest rate and vice versa. Interest rate movement in the debt market can be volatile leading to the possibility of movements up or down in the NAV of the units of the liquid/ debt funds.

- **Credit Risk**

Credit risk refers to the risk that an issuer of fixed income security may default or may be unable to make timely payments of principal and interest. NAV of units of the liquid scheme is also affected because of the perceived level of credit risk as well as actual event of default.

- **Model Risk**

Investments in the Market Linked Debentures (MLDs) are also subject to model risk. The MLDs are created on the basis of complex mathematical models involving multiple derivative exposures which may or may not be hedged and the actual behavior of the securities selected for hedging may significantly differ from the returns predicted by the mathematical models.

- **Investments in Derivative Instruments**

As and when investments are made in derivative instruments, there are risk factors and issues concerning the use of derivatives that the investors should understand. Derivative products are specialized instrument that require investment technique and risk analysis different from those associated with stocks. The use of derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivative requires the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price. There is a possibility that loss may be sustained by the Portfolio as a result of the failure of another party (usually referred as the "Counter party") to comply with the terms of the derivative contract. Other risks in using derivatives include but are not limited to:

- Credit Risk** - this occurs when a counterparty defaults on a transaction before settlement and therefore it involves negotiation with another counter party, at the then prevailing (possibly unfavourable) market price, in order to maintain the validity of the hedge. For exchange traded derivatives, the risk is mitigated as the exchange provides the guaranteed settlement but one takes the performance risk on the exchange.
- Market Liquidity** risk where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
- Model Risk** is the risk of mis-pricing or improper valuation of derivatives.
- Basis Risk** arises when the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets. The risk of loss associated with futures contracts is potentially unlimited due to the low margin deposits required and the extremely high degree of leverage involved in futures pricing. As a result, a relatively small price movement in a derivative contract may result in an immediate and substantial loss or gain. However, the Portfolio Manager will not use derivative instruments, options or swap agreements for speculative purposes or to leverage its net assets and will comply with applicable SEBI Regulations. There may be a cost attached to buying derivative instrument. Further there could be an element of settlement risk, which could be different from the risk in settling physical shares. The possible lack of a liquid secondary market for a derivatives contract may result in inability to close the derivatives positions prior to their maturity date.

Risk Factors associated with investments in Liquid Funds:

The Portfolio Manager may, from time to time, invest any un-deployed funds in liquid schemes of Mutual Funds. Though the portfolio of liquid funds comprises of short-term deposits, government securities and money market instruments, they cannot be considered as totally risk free. This is because liquidity patterns and short term interest rates of the government change, sometimes on a daily basis, thereby making the fund susceptible.

Liquid fund returns are not guaranteed and it entirely depends on market movements.

Specific Risk factors & Disclosures pertinent to Structured Notes & Securitised debt instruments

- Presently, secondary market for such securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investments to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.
- Securitized transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The Credit Enhancement stipulated represents a limited loss cover to the Investors. These Certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the Seller, Issuer and Originator. No financial recourse is available to the Certificate Holders against the Investors' Representative. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall. On persistent default of an Obligor to repay his obligation, the Seller may repossess and sell the underlying Asset. However many factors may affect, delay or prevent the repossession of such Asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such Asset may be sold may be lower than the amount due from that Obligor.
- The Structured Notes like the Index linked securities, in which funds are proposed to be invested in, are high risk instruments. A small movement in returns generated by the underlying index could have a large impact on their value and may also result in a loss.
- The Issuer of equity index linked securities or any of its Agents, from time to time may have long or short positions or make markets including in NIFTY indices, futures and options (hereinafter referred to as "Reference Assets") (and other similar

assets), they may act as an underwriter or distributor of similar instruments, the returns on which or performance of which, may be at variance with or asymmetrical to those on the securities, and they may engage in other public and private financial transactions (including the purchase of privately placed investments or securities or other assets). The foregoing activities of “The Issuer of index linked securities” or any of its Agents and related markets (such as the foreign exchange market) may affect the value of the securities. In particular, the value of the securities could be adversely impacted by a movement in the Reference Assets, or activities in related markets, including by any acts or inactions of “The Issuer of index linked securities” or any of its Agents;

- e. The equity Index linked securities, even after being listed, may not be marketable or may not have a market at all;
- f. The returns on the Structured securities, primarily are linked to the S&P CNX Nifty Index and/or any other equity benchmark as the Reference Asset, and even otherwise, may be lower than prevalent market interest rates or even be nil or negative depending entirely on the movement in the underlying index and futures values as also that over the life of the securities (including the amount if any, payable on maturity, redemption, sale or disposition of the securities) the security holder may receive no income/return at all or negative income/return on the security, or less income/return than the security-holder may have expected, or obtained by investing elsewhere or in similar investments.
- g. The return on investment in securities would depend on the prevailing market conditions, both domestically as well as internationally. The returns mentioned in the term sheets are indicative and may or may not accrue to an investor accordingly.
- h. In equity index linked securities, in the event of any discretions to be exercised, in relation to method and manner of any of the computations including due to any disruptions in any of the financial markets or if for any other reason, the calculations cannot be made as per the method and manner originally stipulated or referred to or implied, such alternative methods or approach shall be used as deemed fit by the issuer and may include the use of estimates and approximations. All such computations shall be valid and binding on the investor, and no liability there for will attach to the issuer of equity index linked securities / AMC;
- i. There is a risk of receiving lower than expected or negligible returns or returns lower than the initial investment amount in respect of such equity index linked securities over the life and/or part thereof or upon maturity, of the securities.
- j. At any time during the life of such securities, the value of the securities may be substantially less than its redemption value. Further, the price of the securities may go down in case the credit rating of the Company or issuer goes down.
- k. The securities and the return and/or maturity proceeds hereon, are not guaranteed or insured in any manner by the Issuer of equity index linked securities.
- l. The Issuer of equity index linked securities or any person acting on behalf of the Issuer of equity index linked securities, may have an interest/position as regards the Portfolio Manager and/or may have an existing banking relationship, financial, advisory or other relationship with them and/or may be in negotiation/discussion with them as to transactions of any kind.
- m. The Issuer of equity index linked securities or any of its Agents, have the legal ability to invest in the units offered herein and such investment does not contravene any provision of any law, regulation or contractual restriction or obligation or undertaking binding on or affecting the investor, and/or its assets.

FINANCIAL HIGHLIGHT OF IIFL WEALTH MANAGEMENT LTD. (BASED ON STANDALONE BALANCE SHEET)

PARTICULARS	AMT (IN RS. MILLIONS)
Revenue from Operations	4046.95
Profit Before Tax	1431.49
Less: Tax Expenses	397.43
Profit/(Loss) after tax	1034.06

9. PORTFOLIO MANAGEMENT PERFORMANCE:

Refer Annexure B

10. NATURE OF COSTS AND EXPENSES FOR CLIENTS:

The following are indicative types of costs and expenses for clients availing the Portfolio Management services. The exact basis of charge relating to each of the following services shall be annexed to the Portfolio Management Agreement and the agreements in respect of each of the services availed at the time of execution of such agreements.

- Management Fees:** Professional charges relate to the Portfolio management services offered to clients. The fee may be a fixed charge or a percentage of the quantum of funds managed and may be return based or a combination of any of these. Return based fees shall be calculated on "High Water Mark Principle".
- Custodian/Depository Fees:** The charges relating to opening and operation of dematerialized accounts, custody and transfer charges for shares, bonds and units, dematerialization, rematerialisation and other charges in connection with the operation and management of the depository accounts.
- Registrar and transfer agent fee:** Charges payable to registrars and transfer agents in connection with effecting transfer of securities and bonds including stamp charges, cost of affidavits, notary charges, postage stamp and courier charges.
- Brokerage and transaction costs:** The brokerage charges and other charges like service charge, stamp duty, transaction costs, turnover tax, exit and entry loads on the purchase and sale of shares, stocks, bonds, debt, deposits, units and other financial instruments.
- Certification and professional charges:** Charges payable for out sourced professional services like accounting, taxation and legal services, notarizations etc. for certifications, attestations required by bankers or regulatory authorities.
- Incidental Expenses:** Charges in connection with the courier expenses, stamp duty, service tax, depository charges, postal, telegraphic, opening and operation of bank accounts etc.
- Other charges:** As may be mutually agreed between client and Portfolio Manager.

MANNER OF PAYMENT:

Client shall pay by way of cheque/ DD/ Debit to the client portfolio account, as per the respective fee schedule applicable to the portfolio services opted by the client.

11. TAXATION:

Income Tax

1. General

In view of the individual nature of tax consequences, each Client is advised to consult his or her tax advisor with respect to the specific tax consequences arising to him/her from participation in any of the investments. The tax implications given below are based on the existing provisions of the Income tax Act, 1961 ("the IT Act") and rules made thereunder. The

Portfolio Manager accepts no responsibility for any loss suffered by any Investor as a result of current taxation law and practice or any changes thereto.

2. Tax Rates:

The rates specified in this section pertain to the financial year 2017-18 as amended by the Finance Act, 2017. The rates are exclusive of surcharge and education cess, if any, as leviable.

2.1. Business Income is subject to tax at the following rates:

ASSESSEE	% OF INCOME TAX
Individuals, Hindu Undivided Family ('HUF'), Association of Persons ('AOP'), Body of Individuals ('BOI')	Applicable slab rates
Domestic company having turnover/gross receipt not exceeding Rs. 50 crore in financial year ('FY') 2015-16	25%
Partnership Firm [including Limited Liability Partnership ('LLP')] and Domestic Company having turnover/gross receipt exceeding Rs. 50 crore in FY 2015-16	30%
Foreign Company	40%

2.2. The slab rates for individuals / HUF / AOP / BOI are as follows:

Total Income	Tax rates (c)
Up to Rs. 2,50,000 (a) (b) (d)	Nil
From Rs. 2,50,001 to Rs. 5,00,000	5%
From Rs. 5,00,001 to Rs. 10,00,000	20%
Rs. 10,00,001 and above	30%

- (a) In the case of a resident individual of the age of 60 years or more but less than 80 years, the basic exemption limit is Rs. 3,00,000.
- (b) In the case of a resident individual of the age of 80 years or more, the basic exemption limit is Rs. 5,00,000.
- (c) Surcharge on income-tax, as applicable and education cess is applicable at the rate of 2% on income-tax and secondary and higher education cess at the rate of 1% on income-tax.
- (d) Rebate of upto Rs. 2,500 is available for resident individuals whose total income does not exceed Rs. 3,50,000.

2.3. Surcharge and education cess rates are provided below.

Type of Investor	SURCHARGE* RATE AS A % OF INCOME-TAX			
	If income is less than Rs. 50 lakhs	If income exceeds Rs. 50 lakhs but less than Rs. 1 crores	If income exceeds Rs. 1 crore but less than Rs. 10 crores	If income exceeds Rs. 10 crores
Resident Individual, HUF, AOP	Nil	10%	15%	15%
Partnership Firm	Nil	Nil	12%	12%
Domestic Company	Nil	Nil	7%	12%
Foreign Company	Nil	Nil	2%	5%
Foreign non-corporate	Nil	Nil	12%	12%

*Additionally, education cess, at the rate of 2% and higher and secondary education cess, at the rate of 1% is leviable on the income tax and surcharge as computed above.

3. Tax deduction at source

If any tax is required to be withheld on account of any present or future legislation, the Portfolio Manager will be obliged to act in accordance with the regulatory requirements in this regard.

i. Advance tax instalment obligations

It will be the responsibility of the Client to meet the advance tax obligation instalments payable on the due dates prescribed under the IT Act.

ii. Tax implications for the Investors:

The following are the various income streams that can arise from securities held under the PMS –

1. Dividend income on shares / income distributed by Mutual Funds;
2. Interest income on debt securities; and
3. Gains on sale of securities

4.1. Dividend income on shares / income distributed by Mutual Funds.

Dividend on shares (referred to in section 115-O) and income distributed by Mutual Funds (referred to in section 115R) continue to be exempt under the IT Act. As per section 14A of the IT Act, the expenses incurred in relation to earning exempt income should not be allowed as deduction.

As per section 115BBDA of the IT Act, in case of any resident assessee other than specified assessee (defined below), if the dividend income (from a domestic company) exceeds INR 10 lakhs, then such dividend income will be taxable at 10% on gross basis.

As per Explanation (b) to section 115BBDA of the IT Act, 'specified assessee' means a person other than-

- i) a domestic company; or
- ii) a fund or institution or trust or any university or other educational institution or any hospital or other medical institution referred to in sub-clause (iv) or sub-clause (v) or sub-clause (vi) or sub-clause (via) of clause (23C) of section 10; or
- iii) a trust or institution registered under section 12A or section 12AA.

However, the Investee Companies would be liable to pay Dividend Distribution Tax ('DDT') on the dividend declared, distributed or paid at the rate of 15% (plus applicable surcharge and education cess) on a grossed-up basis.

Further, the liquid fund (other than equity oriented) would be liable to pay tax on income distributed as follows:

- at the rate of 25% (plus applicable surcharge and education cess) on income distributed to individuals and Hindu Undivided Family ('HUFs'); and
- at the rate of 30% (plus applicable surcharge and education cess) on income distributed to persons other than individuals and HUFs.

As per section 115R(2A) of the IT Act, additional income-tax on the income distributed to unit-holders should be levied on the amount of income to be distributed including such additional tax (i.e. grossing-up), as against levy on only the amount of income to be distributed. This may result in a higher effective tax rate.

4.2. **Interest income on debt securities**

Interest income arising on securities could be characterised as 'Income from Other Sources' or 'business income' depending on facts of the case. In either case, interest income should be subject to tax as follows;

- Resident investors - 30% (plus applicable surcharge and education cess).
- Non-resident investors – 40% (plus applicable surcharge and education cess).

Any expenses incurred to earn such interest (such as interest expense, etc.) should be available as deduction, subject to the provisions of the IT Act.

4.3. **Gains on sale of securities**

The taxation of gains from the sale of securities depends on the characterisation of gains. Depending on facts of the case, gains arising from the sale of securities could be characterised either as "capital gains" or "business income".

Investors may refer to Central Board of Direct taxes ('CBDT') circular No. 6/2016 dated 29 February 2016, CBDT clarification dated 2 May 2016 read with CBDT instruction no. 1827 dated 31 August, 1989 and CBDT Circular no. 4 dated 15 June, 2007 for further guidance on this matter.

4.3.1. *Gains characterised as capital gains*

The IT Act provides for a specific mechanism for computation of capital gains. Capital gains are computed by deducting from the sale consideration, the cost of acquisition and certain other expenses. The tax payable on capital gains would depend on whether the capital gains are long-term or short-term in nature.

Depending on the period for which the securities are held, capital gains earned by the Investors would be treated as short term or long term capital gains. The taxability of capital gains is discussed below:

Type of instrument	Period of holding	Characterization
Listed Securities (other than Units) and units of equity oriented Mutual Funds	More than twelve (12) months	Long-term Capital Asset
	Twelve (12) months or less	Short-term Capital Asset
Unlisted shares	More than twenty four (24) months	Long-term Capital Asset
	Twenty four (24) or less	Short-term Capital Asset
Other securities	More than thirty six (36) months	Long-term Capital Asset
	Thirty six (36) months or less	Short-term Capital Asset

(i) Gains arising on sale of listed equity shares or units of equity oriented fund

Under the IT Act, capital gains arising on sale of listed equity shares on the stock exchange or units of equity oriented fund should be taxable as follows, provided the sale is subject to securities transaction tax ('STT'):

- Long-term capital gains – Exempt
- Short-term capital gains – 15%

Further, as per the Finance Act, 2017, the exemption from long term capital gains tax on listed equity shares will not be available with respect to shares acquired (after 1 October 2014) without payment of STT. CBDT has released notification for the exceptions for public comments.

Normally, the sale of equity shares on the stock exchange is subject to Securities Transaction Tax ('STT') at 0.1% of transaction value.

(ii) Gains arising on sale of other listed securities (other than debentures)

- Long-term capital gains – 10% (without indexation) or 20% (with indexation) Short-term capital gains – 30% (resident investors and other than foreign companies) / 40% (foreign companies)

(iii) Gains arising on sale of listed non-convertible debentures

- Long-term capital gains – 10%
- Short-term capital gains – 30% (resident investors and other than foreign companies) / 40% (foreign companies)

(iv) Gains arising on sale of other securities (unlisted securities)

The gains arising on the sale of other securities of the portfolio companies should be subject to tax at the following rates:

- Long-term capital gains – Resident Investors - 20%. Indexation benefit is available to resident investors in case of unlisted equity shares and preference shares. Non-resident – 10% No indexation benefits available
- Short-term capital gains – 30% (resident investors and other than foreign companies) / 40% (foreign companies)

4.3.2. Gains are characterised as 'Business income'

If the gains are characterised as Business Income then the same should be taxable on net income basis @ 30% (resident investors) and at 40% (foreign company if it has a Permanent Establishment in India).

5. Other tax considerations

5.1 Foreign Institutional Investors [1] (FII) / Foreign Portfolio Investors ('FPI')

As per section 2(14) of the IT Act, any investment in securities made by FIIs in accordance with the regulations made under the Securities and Exchange Board of India is treated as a capital asset. Consequently, any income arising from transfer of securities by FIIs/FPIs are to be treated as capital gains.

Long-term capital gains arising on the transfer of equity shares on recognised stock exchange or units of an equity oriented fund on which STT is paid are exempt from tax under section 10(38) of the IT Act, subject to STT paid on purchase of such shares

Under section 115AD of the IT Act, long-term capital gains (other than those exempt as above) arising from transfer of securities shall be taxable at the rate of 10% (plus the applicable surcharge and cess as mentioned above). Such capital gains would be computed without taking into consideration the effect of indexation and foreign currency conversion.

As per section 196D of the IT Act, no deduction of tax shall be made from any income by way of capital gains arising from the transfer of securities referred to in section 115AD, payable to a Foreign Institutional Investor.

5.2 Non-resident investors:

Non-residents [including Foreign Portfolio Investors ('FPI')] are entitled to be governed by the applicable Double Tax Avoidance Agreement ('DTAA'), which India has entered into with the country of residence of the non-resident, if it is more beneficial than the provisions of the Act. This would have to be considered on a case-to-case basis depending upon the relevant DTAA. Ordinarily, capital gains and interest income are taxable in India in the manner and at the rates prescribed under the relevant DTAA or the relevant rates applicable in India, whichever is more beneficial to the assessee. Furthermore, business income is generally not taxable in India if there is no Permanent Establishment of the non-resident assessee in India.

According to section 90(4) of the IT Act, a non-resident shall not be entitled to claim treaty benefits, unless it obtains a Tax Residency Certificate ('TRC') of being a resident of his home country. Furthermore, as per section 90(5) of the IT Act, a non-resident is also required to provide such other documents and information, as prescribed by CBDT, as applicable.

5.3 Securities Transaction Tax ('STT'):

STT is applicable on various transactions executed on stock exchanges as follows:

Sr. No.	Nature of Transaction	Rate of STT	'Value' on which STT is payable
1.	Delivery based sale of units of equity oriented fund entered into on a recognised stock exchange	Seller to pay 0.10%	Price at which units are sold
2.	Sale of units of an equity oriented fund to a mutual fund	Seller to pay 0.001%	Price at which units are sold
3.	Non-delivery based transaction in equity shares / units of equity oriented fund	Seller to pay 0.025 %	Price at which shares / units are sold
4.	Derivatives: Futures	Seller to pay 0.01%	Futures: Price at which futures are traded
5.	Derivatives: Options	Seller to pay 0.017%	Payable on Option Premium
		Where Option is exercised - Buyer to pay 0.125%	Payable on Settlement Price
6.	Sale of unlisted equity shares under an offer for sale	Seller to pay 0.2%	Price at which shares are sold

5.4 General Anti Avoidance Rules ('GAAR'):

GAAR may be invoked by the Indian income-tax authorities in case arrangements are found to be impermissible avoidance arrangements. A transaction can be declared as an impermissible avoidance arrangement, if the main purpose of the arrangement is to obtain a tax benefit and which satisfies one of the 4 (Four) below mentioned tainted elements:

- The arrangement creates rights or obligations which are ordinarily not created between parties dealing at arm's-length;
- It results in directly / indirectly misuse or abuse of the IT Act;
- It lacks commercial substance or is deemed to lack commercial substance in whole or in part; or
- It is entered into or carried out in a manner, which is not normally employed for bonafide purpose

In such cases, the tax authorities are empowered to reallocate the income from such arrangement, or recharacterise or disregard the arrangement. Some of the illustrative powers are:

- Disregarding or combining or recharacterising any step in, or a part or whole of the arrangement;
- Ignoring the arrangement for the purpose of taxation law;
- Relocating place of residence of a party, or location of a transaction or situs of an asset to a place other than provided in the arrangement;
- Looking through the arrangement by disregarding any corporate structure; or
- Recharacterising equity into debt, capital into revenue, etc.

The provisions of GAAR shall be applicable with effect from 1 April 2017 i.e. from financial year 2017-2018 and onwards.

12. ACCOUNTING POLICY / VALUATIONS:

The following Accounting policy will be applied for the portfolio investments of clients:

- (a) Investments in listed equity and debt instruments will be valued at the closing market prices on the National Stock Exchange ("NSE"). If the Securities are not traded on the NSE on the valuation day, the closing price of the Security on the Bombay Stock Exchange will be used for valuation of Securities. In case of the securities that are not traded on the valuation date, the last available traded price shall be used for the valuation of securities. Investments in units of mutual funds shall be valued at the

- repurchase price of the previous day or at the last available repurchase price declared for the relevant Scheme on the date of the report.
- (b) Unlisted Securities/investments will be valued at cost till the same are priced at Fair Market Value. Such fair value may be determined by an agency appointed by the Portfolio Manager, on periodic basis (once in a year).
 - (c) Realised gains/losses will be calculated by applying the First In First Out principle.
 - (d) Unrealized gains/losses are the differences, between the current market value/Net Asset Value and the historical cost of the Securities.
 - (e) Dividends on shares will be accounted on ex-dividend date and dividends on units in mutual funds will be accounted on receipt of information from the mutual fund house and interest, stock lending fees earned etc., will be accounted on accrual basis. The interest on debt instruments will be accounted on accrual basis.
 - (f) In respect of all interest-bearing investments, income must be accrued on a day to day basis as it is earned. Therefore when such investments are purchased, interest paid for the period from the last interest due date up to the date of purchase will not be treated as a cost of purchase but will be debited to Interest
 - (g) For derivatives and futures and options, unrealized gains and losses is calculated by marking to market the open positions.
 - (h) Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale will not be treated as an addition to sale value but will be credited to Interest Recoverable Account.
 - (i) Transactions for purchase or sale of investments will be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year are recorded and reflected in the financial statements for that year. Where investment transactions take place outside the stock market, for example, acquisitions through private placement or purchases or sales through private treaty, the transaction should be recorded, in the event of a purchase, as of the date on which there is enforceable obligation to pay the price or, in the event of a sale, when there is an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the instruments sold.
 - (j) Bonus shares will be recognized only when the original shares on which the bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis. Similarly, rights entitlements will be recognized only when the original shares on which the right entitlement accrues are traded on the stock exchange on an ex-rights basis.
 - (k) The cost of investments acquired or purchased will include brokerage, stamp charges and any charge customarily included in the broker's bought note. In respect of privately placed debt instruments any front-end discount offered will be reduced from the cost of the investment.
 - (l) The Portfolio Manager and the Client can adopt any specific norms or methodology for valuation of investments or accounting the same as may be mutually agreed between them on a case to case basis.
 - (m) Purchases are accounted at the cost of acquisition inclusive of brokerage, stamp duty, transaction charges and entry loads in case of units of mutual fund. Sales are accounted based on proceeds net of brokerage, stamp duty, transaction charges and exit loads in case of units of mutual fund. Securities Transaction Tax, Demat charges and Custodian fees on purchase/ sale transaction would be accounted as expense on receipt of bills. Transaction fees on unsettled trades are accounted for as and when debited by the Custodian.
 - (n) In case of Portfolio received from the Clients in the form of securities will be accounted at previous day's closing price on NSE. Where the Client withdraws Portfolio in the form of securities, the same will be accounted on the date of withdrawal at the previous closing price. In case any of the securities are not listed on NSE or they are not traded on NSE on a particular day, previous day's closing price on BSE will be used for aforesaid accounting purpose.
 - (o) Investments in the Managed accounts (Alternate investment funds and Venture Capital funds) will be valued at last available Net asset value declared by issuer.

The Investor may contact the customer services official of the Portfolio Manager for the purpose of clarifying or elaborating on any of the above policy issues.

The Portfolio Manager may change the valuation policy for any particular type of security consequent to any regulatory changes or the market practice followed for similar type of securities.
